

CLEVELAND, OH -- From February 7 through 14, Greater Cleveland Regional Transit Authority will celebrate our elected officials and stakeholders as well as our communities and riders during **Ohio Loves Transit Week**.

The fourth annual **Ohio Loves Transit Week** will be engaging with the community on our social channels as well as conducting a contest on Instagram, culminating on **Ohio Loves Transit Day**, Sunday, February 14.

Throughout the week we will utilize our social channels to post interesting facts about our transit services, facts about transit throughout the state as well as why funding is vital for us to provide essential services to the communities we serve.

“As Ohio's only provider of rail for public transportation, our system has proven to be one of our region's greatest assets for mobility enhancement for Greater Cleveland residents,” said India Birdsong, CEO and General Manager of GCRTA.

“We are a resource that offers mobility options to residents as they journey to school, work, healthcare and a host of other essential destinations each day,” she said.
