- ICU Admissions Increase in Last 24-Hour Period: 34
- 21 Day Reported ICU Admissions Average: 24

Vaccine Update:

- Ohio is among the top five states for delivering COVID-19 vaccine doses to long-term care facility residents. As a result of this aggressive effort to vaccinate those in long-term care, Ohio is beginning to see a drop in cases.
- Pfizer has notified Ohio that they believe they will increase their shipment of vaccine by 40 percent around mid-to-late February. Shipments could additionally increase even more by the end of March.
- Pfizer is currently shipping approximately 73,000 doses to Ohio per week.
- Moderna doses have increased from 73,200 two weeks ago to 105,600 doses that are expected next week.
- Ohio was one of the first states to draw unused doses from the long-term care program, and those 77,000 extra doses are being delivered this week to select CVS and Walgreens pharmacies.

ODJFS Public-Private Partnership Team:

- Governor DeWine announced the formation of a new Ohio Department of Job and Family Services (ODJFS) Public-Private Partnership Team to improve Ohioans' experiences with the unemployment system.
- Members of the team will include highly-skilled experts, most of whom are on loan from some of Ohio's top banking and insurance companies:
 - Fifth Third Bank
 - Nationwide

- Western & Southern Financial Group
- Encova Insurance
- KeyBank
- Pat Tiberi, President and CEO of the Ohio Business Roundtable
 - Pat worked with business leaders to identify the best talent for the partnership team who have experience in large organizations' call centers, claims processes, and fraud detection.
- The team currently has around 16 members but is expected to grow.

Unemployment Update:

- This week, Ohio has paid out nearly \$100 million to more than 110,000 Ohioans receiving traditional unemployment. This represents some extended weeks of benefits plus an additional \$300 a week, which were included with the new federal aid.
- Starting this Saturday, more than 155,000 Ohioans will also start seeing benefits from this new federal aid package. This includes Ohioans who recently lost a job as a result of the pandemic as well as Ohioans who continue to be impacted due to the pandemic.
- By the last week in February, all Ohioans impacted by unemployment will have the ability to claim all the weeks and supplements available under the law and receive the benefits they are owed.

Opioid Settlement:

- Governor DeWine also commented on Ohio's \$24.7 million settlement with McKinsey & Co. for its role in fueling the opioid crisis. The settlement is part of a \$573 million national settlement encompassing 47 states, the District of Columbia, and five U.S. territories.
- Settlement funds will be distributed as part of the OneOhio plan which focuses funding to programs that address prevention, treatment, and long-term recovery as well as criminal justice and public awareness costs that promote the overall health and well-being of Ohioans.
- Ohio was one of the first states to file lawsuits against the opioid manufacturers and distributors that pushed millions of addictive pills into Ohio. Last year, the state developed the OneOhio partnership with Ohio townships, villages, cities, and counties that filed suit against these same companies.
